CAPABILITY LIST

APPROVAL PAGE

Title of Manual : AMO CAPABILITY LIST (APM)
Manual Reference : FIFTY/APM/ 2023
Issue No. & Date : Issue 1, 1ST May 2023

Prepared By : ENGR JOSEPH MICHAEL OLUSEGUN
Designation : WORKSHOP MANAGER
Signature:  : **Date:** 9th June 2023

Checked and Recommended for Approval by:

Name : ENGR OGUNSUSI KELVIN OMONIYI
Designation : QUALITY & SAFETY MANAGER
Signature:  : **Date:** 9th June 2023

ORGANISATION APPROVAL

Approved by : MRS AKINGBEHIN OLUWAFISAYO
OPEYEMI
Designation : Accountable Manager/CEO
Signature:  : **Date:** 9th June 2023

AUTHORITY'S APPROVAL

Approved by NCAA :
Name : ENGR C. P. KWASAU
Designation : AVIATION SAFETY INSPECTOR
Signature & Stamp :   **Date:** 07/02/2025

FIFTY AVIOTECHNICS LTD
Approved Maintenance Organisation Capability List

1 GENERAL AND ADMINISTRATIVE PROCEDURES CAPABILITY LIST

1.1 ESTABLISHMENT AND REVISION PROCESS

Introduction: This Capability List manual has been prepared in accordance with the policies and procedures of Fifty Aviatechnics Approved Maintenance Organisation in compliance with the Nig. CARs 2023. This document provides an overall portfolio of Accessory ratings for Fifty Aviatechnics maintenance facility. This AMO may perform maintenance, preventive maintenance, or alterations on the articles listed in this Capability List. The Accountable Manager is responsible for ensuring that this AMO's Capability List is consistent with the AMO ratings. The general repair, overhaul and alteration of products will be performed in accordance with the current Nigeria Civil Aviation Regulations in force, manufacturer's data, drawings, bulletins, or other technical data approved or accepted by the Nigeria Civil Aviation Authority for the particular accessory limited rating.

This AMO will not maintain or alter any item for which it is not rated, and will not maintain or alter any article for which it is rated if it requires technical data, equipment, materials, facilities or trained personnel that are not available.

This Approved Capability List will be maintained in a current status at all times.

The Workshop Manager, and the Safety and Quality Manager working for this maintenance organisation will have a current copy of this manual and should thoroughly understand its contents. The Capability List will be available (on display) at the workshop for access by the public and Inspectors of the Authority.

1.2 REVISION PROCEDURES

The revision process for adding or deleting a component from the capabilities listing is as follows:

1. Only the Workshop Manager, or the Chief operating officer is authorized to make revisions to the listing. Before placing an article on the Capabilities list, the Accountable Manager will:
 - a) Determine that the article is within the scope of the AMO's ratings.
 - b) Perform a self-evaluation to determine that this AMO has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by Nig. CARs 2023.
 - c) Document the results of the self-evaluation.
2. Manual Revision Form FMO-001 will be used by the technician to request any changes to the listing. The form will have to be filled out completely and turned in to the Workshop Manager or Chief operating officer. The form is self-explanatory and must be filled out completely for the component to be reviewed for the capabilities listing. This form will be kept on file in the inspection office after completion of self-evaluation process. See Appendix A.
3. The following information is required about the component for the self-evaluation process:
 - a) Part number.
 - b) Manufacture compliant capability to produce (this may be overhaul, repair, inspect, test, and/or troubleshooting).
 - c) Adequate facilities to do the work.
 - d) Required tooling and/or test equipment on hand and Technical data to do the work.
 - e) Qualified and sufficient personnel to do the task.

FIFTY AVIOTECHNICS LTD
Approved Maintenance Organisation Capability List

4. The Accountable Manager will review and approve the evaluation before revising the Capability List. The Capability List is a controlled document, and once the revision has been approved by the Accountable Manager it will be forwarded to the NCAA by electronic means or by mail within seven days of creation or revision.

The NCAA will acknowledge receiving the revision by electronic means or by mail. NCAA Acceptance must be obtained before implementation.

Fifty Avionics Nigeria Ltd, will only work on those components that are on the Company's Capabilities Listing approved by the Authority.

NOTE: *Additional dash numbers will be denoted by -xxx*

1.3 LIMITED RATINGS: AIRFRAME

Not Applicable

1.4 LIMITED RATINGS: POWER PLANT

Not Applicable

1.5 LIMITED RATINGS: AVIONICS

(RADIOS, INSTRUMENTS, AUTO PILOT AND ELECTRICS)

INSPECTIONS:

1. ATC transponder system, Air-data/pitot-static system, Autopilot system, Compass system, communication systems, Indicating and recording systems, engine instruments, electrical systems, lighting systems, fire protection systems, Navigation systems, EGPWS and Weather Radar systems inspections limited to Inspection and in-situ Test in accordance with relevant approved maintenance manual.
